

J24 Line Lengths

Location	Dia./Length
Main halyard	8mm / 22m
Jib halyard	8mm / 22m
Spinnaker halyard	6mm / 22m
Main sheet	8mm / 19m
Jib sheet	8mm / 15m
Spinnaker sheet	8mm / 16m
Spinny Uphaul	6mm / 14m
Downhaul	6mm / 8m
Backstay	6mm / 10m
Vang(Kicking Strap)	8mm / 4.5m
Vang	6mm / 1.5m
Spinny Twing (Tweaker)	6mm / 7m
Traveller control pair	6mm / 2m x2
Main cunningham	6mm / 4.5m

All lines with Dyneema core. All lines lengths are a little longer than minimum but it lets you cut to the length you prefer.

Most Cost effective Dyneema I have found: FSE Robline Racing Sheet Pro. Other Brands: Gottifredi Maffioli, Liros, Marlow

Cost effective option: FSE Robline Series 500 (will have a little more stretch than dyneema)

My Opinion:

If possible go for Dyneema everywhere.

If your budget restricted, at the very minimum, use dyneema for Main Halyard, Geneo Halyard and Geneo Sheet. After this ... Spin Halyard and Main Sheet .. then work from the lines that the stretch will have the biggest impact on the performance to the lowest.

Look out for "Roll Ends", you can sometimes pick up great value in dyneema this way !

Good sailing !
